

ELEVATOR CABS

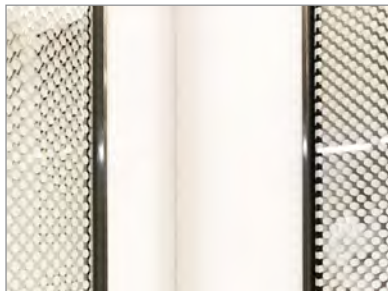

QUALITY ELEVATOR CABS

For a Variety of Projects

We are experts in the design, engineering and manufacturing of standard and custom elevator cabs.

With standard and custom cabs available, we can provide complete cabs in all sizes, shapes, materials and finishes. We provide beautiful design and quality craftsmanship. Our attention to detail and manufacturing capabilities make us a great solution for Class A buildings or standard cabs.

CAB INTERIORS & CUSTOM CABS

Lift Solutions provides top quality cab interiors including wood, stone, tile, glass, plastic laminate and more. We can build any cab you require, including any size or shape. We can match any project requirement and provide the exact cab you need for any job.

CABS

Lift Solutions' cabs have many advantages, allowing us to stand out amongst other cab manufacturers.

- UL Labels up to 120"
- Swing return panels
- NEMA rated hoistway finishes available
- Steel Shell cabs or complete cabs with interiors available

STRONG & DURABLE

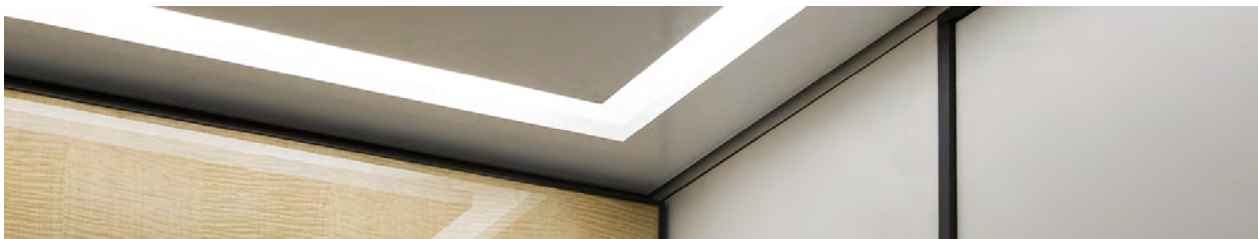

Our cabs are fabricated with high quality materials.

We build cabs that increase the lifespan of your elevator interior. Our cabs can be specified as vandal proof, scratch resistant and even explosion proof.

FINISH OPTIONS

Our cabs come in all finishes.

Our finishes include primed, powder coat, painted, stainless #4 brushed, stainless #8 polished or mirrored, bronze/muntz #4 brushed, bronze/muntz #8 polished or mirrored, and 5WL vandal resistant.
