about dupar

Dupar is one of the most advanced manufacturing companies in North America specializing in production of Elevator Fixtures.

Fully integrated technologies means that final approved drawings drive the order process, including sheet metal fabrication, engraving, final assembly and on time shipment.

Utilizing state-of-the-art in house CAD design technology, Dupar provides extremely quick turnaround on approval drawings for standard and custom requirements.

Dupar continually invests in evolving capabilities including innovation, design and fabrication to satisfy market demands.

Dupar is part of the Dewhurst Group, a world leader in elevator pushbutton technology.

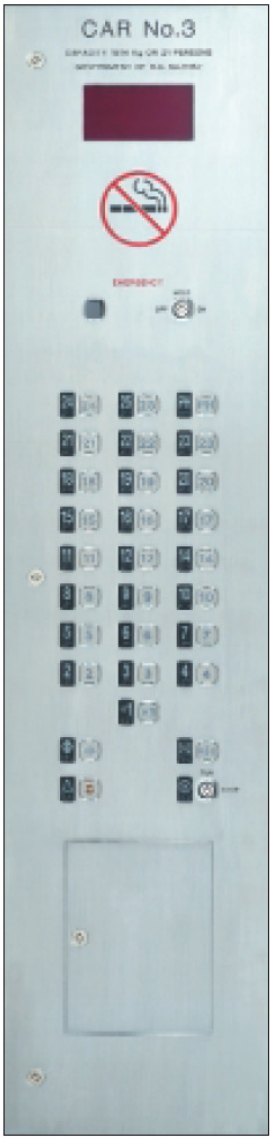

car stations

At Dupar we take great pride in producing everything from a simple single button landing station to complex swing returns.

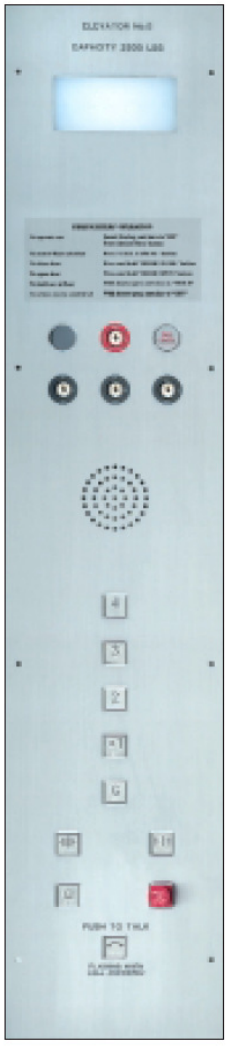

Displayed on these pages are examples of some of our car stations with various styles of buttons and finishes.

Every detail can be customized to suit your unique requirements.

Car Operating Panel

A typical car station is wired to terminal blocks and includes a digital position indicator from CE Electronics, an emergency light, a hands-free auto dialer, engraving as required, key switches as necessary, and Dupar C2 (Compact 2) buttons chosen from our wide range of styles.

Car stations, fixtures, buttons and auxiliary equipment are all CSA approved and compliant with ADA, ANSI 17.1 and CSA B44.

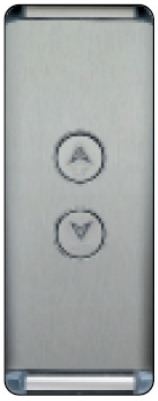

hall stations

Dupar can provide a wide range of standard or customer hall stations.

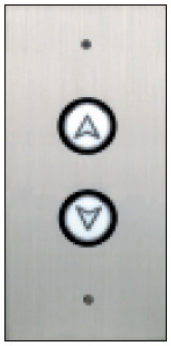

These are usually supplied with matching buttons to the Car Station. We offer extended surface mount stations to enable retrofit buttons to meet ADA accessibility requirements for height..

When using our Compact 2 Micro Button, surface mount fixtures need be only ¾ inch deep.

US89		Full stainless steel or brass pressel in “TV” shape with halo and tactile illuminated legend.
US91		Full stainless steel or brass pressel in round shape with halo and tactile illuminated legend.
US91-15		Where code allows, the US91-15 provides Braille on the button with a tactile illuminating legend.
US92		The “Classic” plastic button with black surround and white pressel.
US93		Our vandal proof button. The pressel bottoms out on a metal surround.
US85		Our largest button with a 2”x 2” face is available with or without Braille.
Custom		We can provide any of the above range of buttons with unique finishes.

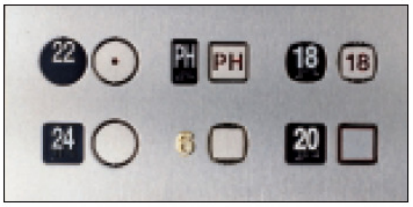

Colors

Dupar C2 buttons are available in a range of different colors to meet your particular requirements. We encourage the use of LED, with its extended life and options for dual level / dual color illumination.

Braille Tags and Jamb Plates

Dupar has a wide selection of Braille Tags and Jamb Plate options to suit your specific code requirements.

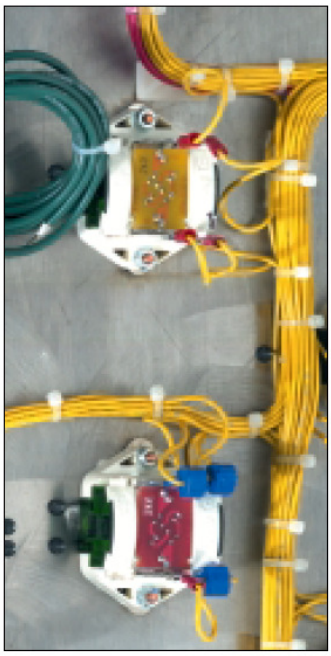

features

Wiring

Pre-wiring of fixtures can save valuable time and money on the job site.

All Dupar fixtures are available pre-wired to terminal block connectors. Wiring can be standard or based on your custom wiring diagram.

Edges

All sharp edges are rounded off to give a smooth finish. As an option, edges can be beveled.

Fixings

Fixing screws between faceplate and box are standard. As an option, concealed fasteners can be supplied.

Boxes

Our standard boxes are manufactured from 16Ga satin coat steel and are fitted with hinges. Optionally they can be supplied powder coated or in stainless steel.

Finishes

Dupar Controls has the ability to supply a wide range of custom finishes.

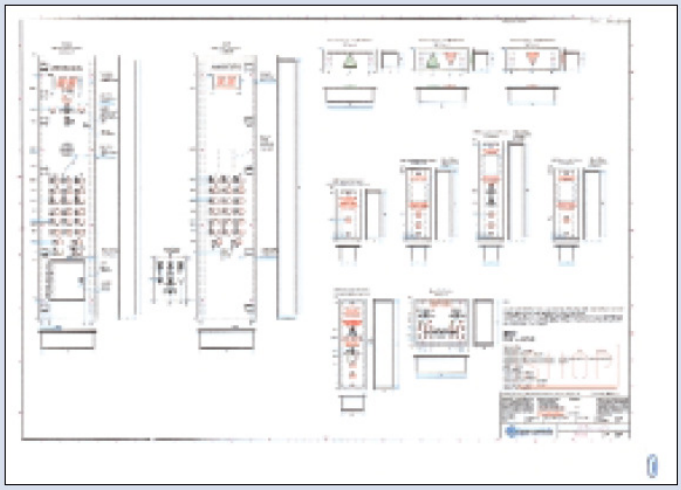

CAD Drawings

Our Engineering Department provides a broad range of services helping to reduce the burden on elevator companies when quoting from consultant's specifications. For demanding projects Site Surveys are available upon request.

Dupar Controls utilizes "State of the Art" in-house CAD facilities. Our technology provides full integration between CAD, order entry, sheet metal and engraving equipment.

Our CAD operators are skilled and resourceful and have many years experience at designing custom fixtures to meet your specific requirements, particularly for modernization projects.

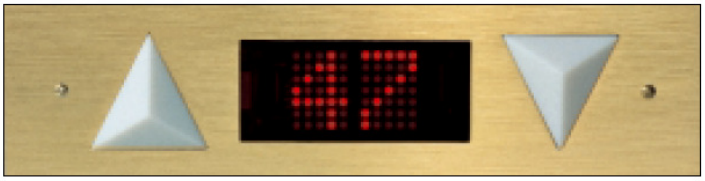

digital displays

Dupar carries the complete CE digital indicator range as an Authorized Distributor for CE Electronics.

Indicators can be supplied as loose units or incorporated into standard or custom fixtures, complete with direction arrows and floor passing chimes.

Digital indicators can be provided in a full range of character heights and configured stand alone devices or driven by a central control unit.
